

Once upon a time in Wonduruba pagam when I was 8 year, I started schooling in Wonduruba primary school and I was been registered in p1 and I pass and that was in 2008 and I came to Juba a holidays and I returned back so I was in class 2 in 2009 and 2010 in Primary and I failed so I repeated the class and in 2012 my bring me to Juba and he registered me in primary & that is when I realised about my future because I came to understand the importance of schooling so in that year I pass in good position and I was promoted to class 5 in star guide primary I study in the schools for 5 good year and I was able to read, write and speak. So 2016 when the civil war occurred when I was in class 8 at star guide I went to the village in Aug, 2016 and I was not be able to complete my class 8. and in October when the refugee camp was open in Uganda and my dad took us to Uganda and I face the challenge of not completing my primary leaving certificate and wasn't happy with it and I stayed at home a year and when I registered in high primary schools in the camp of Abiramaajo I face a challenge of promotion to class 6 and my colleague are ahead of me and I was ashamed of myself. In 2017 I was about to give up in school because I need books, uniform, pen and light for me to pursue my education and I met one friend, my friend who advised me and took his advice and I continue with my school and I was like an orphan.

And 2019 when I am in class 7 as a candidate I face the challenge of light for studying and financial for school ID and when I call my father he told me that he has not cash and life become very hard and harder so I was with my friends when they are studying I will be near them until I completing class 7 and in secondary school they need money for feeding ID and uniform, so I do some work and get money for my schools.

I look far away and call my mom and I found out that she lived
Kalobeyei settlement and decided to come to the camp.
In 2020 when the corona breakout I registered in form one and I was
taken to reception for a manifest.
So when I came back I found out that schools was closed and I engaged my
self in community activities, playing football and students resume to schools
in 2021 I joint and completed form 1 and when I was in form 2 the
headteacher required of my original certificated for class 7 legendo-
and I came with the copy of results ~~the~~ and I gave him and he loss
the certificated and he told me to go home and never return to
the schools and it lead me to dropout of school without achieving
my future plans and I join some courses in the community
and I heard of Annala high school diploma and I joint the
school in 2022 unit now and I have completed successfully.
